WELCOME

Welcome to the beautyspot. We provide expert, professional advice on all aspects of beauty. We also offer time-saving yet effective facials and body treatments guaranteed to meet our high standard of quality. Our specially selected products facilitate your beauty care at home and enhance the effect of the treatments we offer.

body, face & products

BODY

CELLULITE TREATMENTS, SKIN TIGHTENING, BODY FORMING

Lipomassage through endermology

Endermology is a highly effective method of treatment aimed at reducing the appearance of cellulite, tightening the skin and eliminating resistant fat cells (lipolysis). Endermology improves skin quality, optimises the silhouette and promotes the production of collagen and elastin. The result – a slenderer you and smoother, tauter skin.

Herbal Aroma Wrap

Thanks to their girth-reducing effect, wraps are ideal as slimming treatments. They not only leave the skin looking more youthful, radiant and taut, they also have a detoxifying effect. The combined application of wraps and endermology is extremely effective in terms of cellulite reduction and contouring of the figure; it also helps amplify the effect of the two treatments.

MediCube

The innovative ultrasound technology of the MediCube focuses on and reduces troublesome and diet-resistant fat deposits around the abdomen, legs, hips and buttocks. The process dissolves inner-cellular fats, which the body's own lymphatic system then flushes away.

WELLNESS AND MASSAGES

Lomi Lomi Nui

This holistic form of massage loosens tense muscles, gets the joints moving,

and helps you escape the stress of daily life and enter a realm of deep relaxation. Enjoy the embrace of warm, wonderfully fragrant blends of oils as the sounds of Hawaiian music waft over you.

Whole-body Massage

Try our exclusive, relaxing, vitalizing and rejuvenating whole-body massages with an oil of your choice and immerse yourself in our oasis of wellbeing.

Business Treatment

We developed our Business Treatment subscription with busy people in mind: it consists of six 30-minute whole-body massage sessions – perfect for relaxing and unwinding. The subscription is transferable amongst staff within the same organisation.

Business Treatment (30 min) – 6 session prepayment	480

(all prices in CHF incl. VAT)

FACE

FACIALS

Our facial treatments are aimed at vitalizing the face of the skin and restoring its youthful appearance. The in-depth effect of the treatments boosts elastin and collagen production and contributes to a tightening of the skin and an improvement of its texture.

Peeling

Our facial peeling features a Bio Triple Active Complex of alpha hydroxy acids to improve the surface texture of the skin and purify the pores. As a result, the skin becomes more elastic with improved hydration. For lasting effect, we recommend regular monthly repeat sessions.

Microneedling

Microneedling is a professional facial treatment procedure aimed at achieving skin rejuvenation and renewal. This therapy involves a minimally invasive microneedle roller to stimulate collagen induction. Our microneedling treatments serve to restore the skin's plumpness, elasticity and tautness. The overall effect is a fresher, younger-looking skin. For lasting effect, we recommend a course of six sessions.

Endermolift

Endermolift is a treatment involving a deep-acting facial massage. The liftmassage process delivers micro-beats to the surface of the skin to reactivate cellular activity and stimulate the fibroblasts. The outcome is smoother, plumper, younger-looking skin.

MAKE-UP

Professionally supervised make-up is the perfect way to achieve that final, fresh look. Our beauticians are happy to pass on their secrets. Create your individual look with a personal consultancy.

Prices: Facials
